effort to regain work for our FCAC Contractor members that has been slipping over to the non-Union sector in recent years. His initial targets will be building owners and managers downtown who control the lucrative repaint business.

Clark brings a wealth of education, drive, and experience to the table for spearheading this new initiative. A 1988 graduate of Northern Illinois University with a major in Industrial Technology, he worked ten years for Sherwin-Williams, seven years for H.B. Fuller, and five years for Video Conferencing Management, prior to joining Payroll Processors in marketing and sales. He lives in Naperville with his wife, Heather, and their three boys. He's a Sox fan, which we can forgive because he also loves Wrigley Field and

roots for the Bears.

Watch for Clark at forthcoming FCAC meetings, and be sure to take advantage of the marketing tools he'll be offering for Contractors. Just for one example, he has a Sales and Marketing Seminar in the works for painting contractors, which will be offered later this Fall. It is being designed to help Sales and Estimating personnel close the deal on new business in an evermore competitive painting contracting industry.

See you September 10th?

All the Best...

Clark
